

DESCRIPTION

Fibre cement weatherboard is the ideal low maintenance, rot free alternative to traditional timber weatherboarding.

With the visual appeal of natural timber, yet simple to install, resistant to rot, our weatherboard is an attractive low maintenance alternative to uPVC.

Pentagon installed weatherboard can be supplied in Natural finish for on-site painting, available in a range of factory applied colours or wood stain shades.

Our bespoke colour service allows housebuilders and specifiers to maximise their aesthetic options by offering an extensive range of factory-approved paint or wood stain options to meet project requirements.

ADVANTAGES

- Excellent aesthetics
- Resistant to rot and maintains its looks
- Low maintenance
- Easy to install
- Use in the same way as wood
- Stands up to the harshest weather conditions
- Class 0 fire performance
- Immune to attack by pests and insects
- Weatherboard is ideal for use where traditional timber boards might be considered, especially for facades and window and door surrounds
- BBA Certificate No. 06/4299
